DGCT organized 8th Open House Exhibition on “**Emerging Technology in Engineering**” to commemorate the occasion of Engineers’ day on 29.09.2022. This event provided a platform for the DGCT students to exhibit their innovative ideas through projects, models and poster presentations. More than 200 projects, models, posters presented by our students and more than 900 students from all departments enthusiastically participated. The projects, models and poster presentations are to depict the advancements of science and technology by finding solutions to challenging problems.

On this Occasion, various school Head Masters and Principals were invited as Guests of Honour. They visited all the projects and appreciated our students for presenting their innovative projects

Our Chairman Mr. D. Manojkumar, Secretary Mrs. Archana Manojkumar, and Principal Dr. A. Selvaraj congratulated the participants for their enthusiastic participation and implementing their ideas in the form of projects, models and poster presentations.

Among the various projects displayed in the exhibition, few of them would be implemented by the management in the college campus in the near future and promote research and development. The students assured that, the effective futuristic ideas evolved from their mind would be made realistic in the quick span of time.

The Engineers day '22 event was successfully celebrated.

Engineers day events were coordinated by Dr. P. Parandaman, ASP/MECH and Mr. M. Balasubramani, AP/ECE

No. of Participants: 950

Acknowledgement:

We are grateful for the financial assistance provided by AICTE through SPICES programme and also to the management of DGCT.
